The Promise is a 2005 Chinese epic fantasy, a fairy tale for adults that allows the viewer to visit a completely different world, and at the same time. The story begins with the two main characters living in a village. From an early age, they were best friends, and, as they say, they became brothers in arms. But this was not always the case, because many years ago one of them was an ordinary person, but, during the civil war, he became a victim of murder. And then his soul was cursed, and turned into one of the demons. But, he did not become a traitor, on the contrary, he decided to take the side of good, and, by all means, take revenge on the killer. Princess Qingcheng (Cecilia Cheung) thinks she's in love with him. She is sure that everything is serious with them, but her admirer is not one of those who confess their feelings first. And then she tries to become "her own" in the company of a childhood friend. He helps the girl start a new life, but it turns out that all this is nothing more than a game, and he just used it... "Vertigo" became a turning point in Hitchcock's career, because it was after him that he began to use visual effects that had not been used in films with his participation until that time. Vertigo -
