## What's New In SFont?

sFont is a free font manager which helps you choose the best fonts. Here you can make your own personal character map with all the fonts that interest you in several ways. You can browse through all the fonts and choose the best one for you, or filter all the fonts to make it easier for you to browse. With some of the fonts, you can also play around with their formatting and get different variations of them. For those who are not familiar with using fonts, this app will come in handy, since you can not only view fonts in a list view but also preview them in a large character map.
