## AD Unlocker Pro Product Key

AD Unlocker Pro is an intuitive tool that allows you to easily view the user accounts in the Active Directory that were locked. The application is a reliable assistant in administering a server and its Active Directory, since it can automatically detect the locked accounts. AD Unlocker Pro is easy to use and can automatically detect the locked user accounts, so that you may quickly fix them. All the locked accounts are displayed in the dedicated area in the software's interface, so you may easily select the ones you wish to unlock. Alternatively, if you wish to restore only one account or only unlock one at a time, you may simply type it in the designated space and start the process. The program also features a keyboard shortcut for unlocking the selected entries. Moreover, AD Unlocker Pro can prompt you on the soon to expire passwords. A designated searching function allows you to identify the users with passwords expiring in less than the specified number of days. You may easily notify your users to change their passwords before they expire, by sending them emails. The program features an email sending function, which also comes with a simple template, to let your users know their passwords are about to expire. Alternatively you may send them a reminder. The messages are only sent to the selected user accounts. The program can be set to automatically refresh the list of locked out users, so that you may view the errors in real time. Moreover, you need to specify an email SMTP server, in order to enable quick email sending. AD Unlocker Pro can also generate an audit trail, which you can view from a specialized window and select the auditing technology mode. If several auditing methods are supported, you may choose the appropriate one for your purposes. AD Unlocker Pro can easily get a local database working on your server. It provides several ways to connect to databases and SQL instances, such as over a network, local file system, and SQL Server management studio. The application is compatible with all Microsoft SQL server back-end database systems, including: SQL Server 2000, SQL Server 2000 Express, SQL Server 2005, SQL Server 2005 Express, SQL Server 2008, SQL Server 2008 Express, SQL Server 2008 R2, SQL Server 2012 and SQL Server 2012 Express. Key Features: View all the locked user accounts in the Active Directory. User accounts are locked without the need to write a single line of code. Find all the expired passwords for the accounts in the Active Directory. Auto-lock and unlock the accounts in the Active Directory
