significant time into making sure every player and object on the pitch truly looks like it does in real life. When a player goes into a tackle and hits a player in the air, it looks and feels like a real contact sport.

PROS & CONS Pros -Play like never before with the most authentic recreation of the game yet. The FIFA VR 5 series development team and serious football clubs in England took a long period of research and design to create this fidelity.

- **NEW SINGLE PLAYER CAMO** Bring your skills to the pitch on custom teams and experience an even more immersive game. Bring together your favourite players and recreate iconic tournaments like the 2014 World Cup Final. You won't have an easier time finding a perfect, authentic looking kit for your team - it'll be hard to beat the FIFA Street 3 team kit the Brazilian National Team wore.
- **REWORKED WORLD WIDE EXCLUSIVE TOURNAMENT** For the first time, new tournaments with thousands of teams and 30,000-plus athletes are now available to play on FIFA Ultimate Team. Become the World Cup Champion, 2015 Ballon d'Or winner Cristiano Ronaldo, or David Alaba in FIFA 20's new Concacaf World tournament. Some of the most physically demanding clubs compete in the brand new five-a-side Copa FIFA Verde. New clubs like Manchester United, Arsenal, and Bayern Munich handle the ball at incredible speeds, but there's still no better way to experience the heart and soul of the sport than on custom football teams in the FIFA Street 3 development team's tournament.
