James took on a role on "The Walking Dead" back in season one and he was immediately pulled into the storyline that surrounded Rick Grimes, the boyish-looking and hard-nosed leader of a group of survivors inside of an Atlanta prison. He's been one of the show's most interesting and well-rounded characters to date. In season two, James was tasked with a big and dangerous storyline that pitted him against his longtime friend and strongman Shane Walsh. It was during this storyline when we discovered that Rick and Shane were complicated and complicated relatives. Many viewers felt that their storyline was boring and implausible, and it even had a few of us going on the comment board and complaining about the direction it was headed in, but it was one of the show's biggest plots and it led to a very shocking ending. Afterward, James was still on-screen, but his role on the show was no longer limited to being Shane's brother-in-law. We got the sense that his storyline was going somewhere, so when he ended up living with Glenn when he found himself in a hospital in season four after an accident, we knew what was happening. Advertisement At the end of last season, James and Glenn were back inside of the hospital when they had this chance encounter with a zombie. He ended up leaving the hospital with his new friend, Daryl, and the two went looking for the rest of their group that had gone missing after leaving the prison in season two. Now that he's found his group, it's safe to say that James, Daryl, and Glenn are
