MSI ODBC Driver for Microsoft Visual FoxPro (Formerly ODBC Driver 8. All Microsoft Visual FoxPro ODBC driver download for Windows, MacÂ . Microsoft Visual FoxPro ODBC Driver 1.Response of serum lipids, lipoproteins and lathosterol level in relation to the type of diet in adult men and women. In 30 male and in 30 female adult volunteers of fair and good health, the effect of three different fat-loading diets of isoenergetic and of equal energy value on the lipid and lipoprotein pattern was studied. The subjects were given for two months a hypolipidemic diet, after which two diets were given in a randomized order. The high-fat diet contained double the fat intake of the control diet. The middle-fat diet contained half of the fat of the control diet. The low-fat diet was isoenergetic with the control diet. The total energy intake of all three diets was equal. Blood samples were obtained at the beginning, middle and at the end of each diet period. Serum total cholesterol, triglycerides and phospholipids were measured. Lathosterol was used as an indicator of cholesterol absorption. Data are expressed as mean values +/- SEM. High-fat diet increased serum triglycerides by 35% and total cholesterol by 12%, whereas lathosterol increased by 19%. The change in triglycerides and lathoster 0cc13bf012
