#### Features Key:

Explore many exciting scenes or huge dungeons Over the wide openness of the game, there are many scenes or huge dungeons to be explored. In such a vast world, you can freely make your way along roads or cross the sea to defeat bosses. You can even head to all parts of the Lands Between. Command vast armies of humans or Elves through the power of the Elden Ring With your army, you can stop the invasion of a fierce enemy! In the very beginning of your game, an army is present to be recruited. You can equip it and unleash your strength against other races in PvE or kill other players in a PvP battle. Design your own places As you make plans to build your base, you can freely build any place for your troops. Even for the most sophisticated users, it's easy to design an awesome place in which your troops can build their morale. Mount your armies with the Royal Shield with an easy deploy command Transfer your troops to battlefields while maintaining the cohesion with the allies and avoiding the enemy's attacks. Experience the excitement of being a commander on the battlefield.

#### Elden Ring combat system:

We have the goal to make a fantasy game that has a mechanism similar to battlegrounds and an online-auction system that are found in video games. We aim to have a game where the moment of real-time commanding an army will show players the exciting experience of flying across with their army.

#### System specification:

- Javascript: v1.7.0 and later
- System information, character information, item information, garrison, social, map information, data information, and call items will all be exchanged through network.
- Runtime: Its content transmission speed is up to 5mbps per second. The number of players you can connect to each time is limited to 32.
- Game time: 50+ hours per week
- Network: indeo3, WebSocket, UDP, VoxGame information will not be sent. Players will only receive information of other players as the player number.
- Chat:

“There's just so much there: a wealth of magic and an almost complete freedom to experiment with it in a wide variety of ways, a huge variety of enemies and bosses to use it on, an intricate quest system, an active, clambering world, and a vast landscape that encourages exploration and long hunts. It really is one of the prettiest RPGs out there, which is perhaps at least as important in the end as it is for its technical achievements, given that the game's magic system could be infinitely more dangerous and involved than much of the existing sorcery systems I'm used to in the genre, and still have it manage to be some of the most charming I've seen.” "This post was written by a user of the site, and therefore is not an official post of Kotaku, Inc. or the Kotaku editorial staff.”

From the Facebook of Squenix ● Now we get to see a total of 6 playable characters! - NPC characters (4 characters) - playable characters (2 characters) And now, here is the "playable characters" - Annoyance - - Elden Commandment: "Rise, Tarnished, and be guided by grace to brandish the power of the Elden Ring and become an Elden Lord in the Lands Between" - - Annoyance - - The heroine is a young aspiring warrior who left her home in order to make her fortune. Although said to be from a noble family, her fragile and naïve heart was alone enough in a world full of hardship and dangers. Her eloquence as a warrior is unmatched, but she envies no one as she is able to capture the hearts of those around her. She only cares about the hardships of the people of this world and never holds a grudge against anyone. - - Skuld - Dilettante Quests: Character's story will change depending on their knowledge. She is popular among the men for her powerful heart and stylish speech. She is proud of her childhood friend, Mary, and what she has accomplished in the Elden Ring. This has made Armalia's gentle nature seem somewhat cold, but not because she hates men. - - Celica - Cecilia's older sister is a cousin to the tribe chief Armalia. She is a skilled warrior and gentle and kind person, so she is
