Cracks, Mobile Apps, Movies, And Technology Site Etc. Adobe Creative Suite 5.5 Master Collection: Cheat Fb is a website that allows you to search for. Q: In android firebase, get the total number of users in a database? I want to know, how to get the total number of users who have
subscribed to my firebase database. I want to add them to a listview. A: for that use DatabaseReference, its the fundamental interface to firebase. Check the below link to get more understanding: DatabaseReference rootRef = FirebaseDatabase.getInstance().getReference();
DatabaseReference refChild= rootRef.child("User_Details"); ValueEventListener valueEventListener = new ValueEventListener() { @Override public void onDataChange(DataSnapshot dataSnapshot) { int total_users = 0; for(DataSnapshot ds : dataSnapshot.getChildren()) { User user =
ds.getValue(User.class); //here you can get a reference to child to pass to another activity refChild.addValueEventListener(new
