In November 2014, EA Sports released My Club (originally previewed for FIFA 19), a PlayStation 4 video game that lets players create, manage, and play matches with a customized, local, online, or virtual-reality football team. Following this, in May 2015, FIFA 16 saw the introduction of Pro/Coach Mode, which allows users to create their own soccer teams using real and fantasy players. FIFA 17 introduced Game Prep, which allows users to customize teams from each game mode to make them their own, and also had a number of other gameplay improvements, new game modes, and new players. In October 2015, the EA Sports FIFA video game franchise launched the new Ignition Engine. IGNITION is an all-new game engine designed to propel gameplay to new heights, with the goal of delivering a fully integrated online, offline, and console experience. IGNITION also provided FIFA 17 with new game modes and features, improved animations and player movements, new control schemes, and more. In January 2017, EA Sports launched FIFA Ultimate Team, a social game mode that allowed players to purchase and create a team of professional soccer players.
