The Ion Cannon is the industrial laser that was built in that first lab that was hit in MOC2. It is the first research you can do in each lab, so it's a good thing you finished Building the first lab to unlock this. It pretty much just picks you up and tosses you into space with an orange glowing barrel. Drop off and scoop your own chunks, then go back for more. VITATIO 3 - Robot Base Unlocked All the power of the industrial laser, just in… a robot. Invaders will have no problem in destroying this versatile bouncer, but can they take down the unbreakable at the same time? VITATIO 3 - Hazardous Gas Unlocked The stuff that makes everyone deathly ill. VITATIO 3 - Spooky Grab Unlocked Although, to be fair, it's not as scary as the Hazardous Gas. Who would want to grab things in close quarters with that stuff? VITATIO 3 - Shark Base Unlocked When it comes to clearing out the VIP Quarters, this is the close-combat weapon to use. VITATIO 3 - Angry Stomp Unlocked Other than causing other citizens to cry in the corner, this little bugger doesn't do much. But that's ok, because it's pretty annoying and easy to kill. VITATIO 3 - Pick-Up Friend Unlocked Well, this is one has a friend. And it's not the Hazardous Gas or the Shark Base, so it gets two points. Plus, they're not bad. VITATIO 3 - Sweet Fury Unlocked Remember how I said the reason that the first MOC in MOC2 wasn't that interesting was the

Fallen Archon Project's lack of technology? Well, this is pretty representative of what the Fallen Archon Project was like at the time. VITATIO 3 - Rocket Base Unlocked I don't think you need a rocket for an Ion Cannon, but, hey, at least it does the job. It doesn't have a rocket pilot either, but that's fine—the owner of the lab can pull it out of the cuffit and do it. VITATIO 3 - Immanuel Start Unlocked Your ship is not the Robocraft, but, hey, you use it when you're exploring
