I am trying to find a way to automate some coding for this code, I have gotten as far as this which will open the temp file and add the values for me but when I try to loop through the characters(which in this case would be the number after the "Fav") and output them to the log it doesn't give me the correct output. A: Could use a for loop: Log.append("data today is %d " % now.day) Log.append("data today is %d " % now.month) Log.append("data today is %d " % now.year) Log.append("data today is %d " % now.hour) Log.append("data today is %d " % now.minute) Log.append("data today is %d " % now.second) Log.append("data today is %d " % now.weekDay) Log.append("data today is %d " % now.weekNumber) Log.append("data today is %d " % now.dayOfMonth) Log.append("data today is %d " % now.dayOfYear) Log.append("data today is %d " % now.dayOfWeek) Log.append("data today is %d " % now.dayOfYear%100) Log.append("data today is %d " % now.dayOfYear%100%100) Log.append("data today is %d " % now.dayOfYear%100%100%100) Log.append("data today is %d " % now.dayOfYear%100%100%100%100) Log.append("data today is %d " % now.monthName) Log.append("data today is %d " % now.monthName%100) Log.append("data today is %d " % now.monthName%100%100) Log.append("data today is %d " % now.monthName%100%100%100) Log.append("data today is %d " % now.monthName%100%100%100%100) Log.append e79caf774b

Why don't students share in the boycott? Drori Shuri stated that a "large percentage of the population of Israel, especially young people, are not political. They are socially liberal." Rosenblatt added that "the boycott hurts the Israeli human rights movement." Do anti-Zionist Jews have any obligation to boycott Israel? Ariel Daniel Rosenblatt responded with a three part question: (1) If a Jew isn't a Zionist, does he need to boycott the existence of a state for which he has no affinity?
