I can get a count of the number of orders that are already present and count them from there. The number of orders is not the same for every line, the number of orders may vary for every stock item. How can I get a count of all orders for a single line? I tried this but it is not possible. var item = db.Items.FirstOrDefault(i => i.Id == id); var orders = db.Orders.Where(o => o.Item_Id == item.Id).ToList(); var count = orders.Select(o => (o.Price.HasValue)? o.Price.Value : 0.0).Count

Elden Ring Elden Ring is a major topic in Elven history; it is a sacred symbol of hope for the people of Elves, who greatly admire and praise the Elendril, the symbol of the divine power of the elves. History Elden Ring was the most important sacred symbol of the elves, a symbol of spiritual power. The Elendril was the symbol of the Elven First Kings and the most important sacred symbol of the elves, representing the power of the Divine and the power of the gods. In the beginning, the Elendril was engraved on weapons and shields and was viewed as a divine creation or an invention by the gods, so it was highly revered and most elves respected it very much. As the elves spread from the place they left after the final defeat of the god Ys, the Elendril became a symbol of Elven people's hope for their future prosperity. After Elden Ring became a symbol of hope for the Elves, the Elendril became a symbol of hope and they believed it was a sacred symbol of the power of the gods. Throughout time, elves realized that the Elendril was a symbol of hope, symbolizing the power of gods, and it was revered. In addition, they were very distressed that they could not have long life and see the passing of time. Elden Ring was passed down in the Elven royalty. The First Kings of Elves could not be passed on directly by their heirs. Therefore, the Elden Ring was passed on by their children's children to the First Kings of Elves, to the young kings or the newly appointed First Kings of Elves. However, the First King of Elves could not change or destroy the symbol of the Elendril, and they could only destroy the weapons or shields with the Elendril on them. Thus, the Elden Ring was slowly passed down from the First Kings of Elves to the First King of Elves. A First King of Elves led the Elves into a struggle against the dark and wicked elves. Elden Ring played a major role in this battle. As the Elves' research and technological advancements expanded, the First King of Elves also designed the new Elendril. Elden Ring was equipped with the Elendril, and the Elves improved the Elendril. As a result of the Elden Ring's improvement, the Elves could also discover new places. After many years of research and development, the Elves discovered the lands beyond
