RT and USB-K4Y cable for QUANSHENG TG-UV2 Radio. RT Systems RPS-TG2 software helps program memory channels and menus. RT Systems has released a new version of its software for controlling the RPS-TG2 radio station and transmitting programs to the radio station via the Internet. The new software provides the ability to work on radio stations in RT Systems RTOS networks, as well as connect to radio stations using a USB cable to transfer programs to the radio station. The RT Systems RPS-TG2 software helps program the radio's memory channels and menus.
