And Prior Incantato instead of Priori Incantatem. I haven't checked all the spells, but my Potterhead kid would dismiss the entire book for those errors. Its too bad, because you did a beautiful job otherwise. The Standard Book Of Spells Grade 2 By Miranda Goshawk

According to Miranda Goshawk, in her book The Book of Spells, Grade 2, this is a very easy spell to cast. It's one of the first spells taught to all Hogwarts students in their fourth year of Charms class. With some practice and dexterity, the spell is a surefire way of starting a fire. The spell can be cast upon any flammable surface, even a damp cauldron. Runecrafting is an ancient, magical art.

Runecrafting involves using the magical and enchanted runes to craft useful and sometimes life-saving tools. To understand how to properly cast Runecrafting, the student must first master the art of runes. In this standard book, Miranda Goshawk has provided you with the tools you need to learn how to runecraft like a pro. To cast the Patronus Charm, a strong bond must form between the caster and the Patronus that they wish to conjure. The strength of the bond allows the caster to harness the power of the Patronus, and impart their will upon it. The Patronus is capable of rendering those it is directed against, incapable of harmful action, and can even provide its master with valuable information. In this book, Miranda Goshawk has provided a list of Potions that you may use to direct a Patronus, and what that Patronus is capable of doing. All of the charms, incantations, and spells in this book are cleared for use by the Ministry of Magic (or any equivalent Ministry authority) and are not restricted to private use or wizarding private schools.
