## Deep Fritz 14 !NEW! Free Download Full Version

Single processor engines are a thing of the past - that's why New Fritz is a powerful multiprocessor version from the start. Deep Fritz 14. It uses a 32-bit ARM926EJ-S core clocked at 100 MHz and has 64 KB of L1 cache. The ERA II memory built into the processor uses faster SRAM, one per core, and is 128 KB. It speeds up memory handling and data processing. The I/O interface contains a chipset that supports the PCIe bus. In addition, Fritz 14 supports up to four serial and two parallel I/O channels.
