
Patchman Musica Ewi4000s Volume 1 22

Download

this is a special serialized unit with 4 of us - additional digital effects sent to you via email, 2 from george simian and 2 from dave bazilio. we're very pleased with these special custom digital effects. you are probably familiar with george simian's fx-1, fx-1, which is a great free digital effects plugin that is available on the internet. george also does some interesting work on the ewi system. in addition to the buschuke droplet suspension system, you will receive 2 compressors, chorus, phaser, flanger, reverb, and both digital looper units. these are included with the unit as well as 2 copies of george's effect instruction sheet, and 2 copies of dave's effect instruction sheet.
