Rheem Tubing Hints (Recommendation for Gas Piping Plumbing Codes) 1. Cut off mains water supply. 2. Never use any chemicals on the tubing (including rheem systems) or anything that can damage the tubing and/or cement (bathrooms included). 3. Store wrapped cut tubing in a warm, dry place. 4. Avoid pinching off tubing with pipes; use pliers to grip it. 5. Use only professional plumbers and heating or plumbing contractors for repair or installation. 6. If repair work is needed, clean, dry and fill the system with fresh gas. 7. Store gas at a minimum working pressure; too low a pressure can cause corrosion and too high a pressure can cause ruptures and explosions. FOR USE WITH RHEEM MOTOR HOME MODELS ONLY 58 Rheem Model RVR41212800 N/A 38 Gallon

Mounted Thermostat Gasket 1 SP Thermostat As Required Gasket 1 AP12112Z Note:
Rheem 38 Series Hot Water Heaters require a new recirculation valve assembly. For
this reason, the recirculation valve in these 38 Series Rheem units have been
redesigned. The recirculation valve in the 38 Series Rheem Hot Water Heaters has a
port (finger hole) on the valve stem instead of the valve washer. The recirculation valve
in the 38 Series Rheem Hot Water Heaters requires a new washer gasket and pipe
washer to be installed to allow the new valve to be installed into the unit. 12.
Thermostat Gasket As Required 1 AP13000 13. Fixed Access Panel 1 AM C 14.
Fuseholder 1 AP15000 15. Fuseholder As Required 1 AP15000 16. Fuse 1 (240V) Fuse 1

SP11022 SP11089 Note: Rheem 39, 39R, 39S Series Hot Water Heaters require a new
fixed access panel. For this reason, the fixed access panel in these 39 Series Rheem
units have been redesigned. The fixed access panel in the 39 Series Rheem Hot Water
Heaters has a port instead of washer on the cover plate. Rheem38 Series have no new
fixed access panel parts. 15. 5ec8ef588b
