Photosh...So, with the recent popularity of Apple-knockoff devices and the fiasco that ensued, how many of you are still going to make the switch from Linux?

I'm going to switch to a Mac, and I'm trying to get my hands on a MAC for cheap. I'm going to do some research, so I'm kind of looking for some advice. I've seen a few people asking this question, and I'd like to know what you're going to do? you might as well forgo the gui and try tiling wm's, such as ratpoison, for example. you might as well forgo the gui and try tiling wm's, such as ratpoison, for example. *hint* If you're a developer/IT professional, you'd be better off using a laptop-type system.
