What's New In Playlist Creator?

Playlist Creator is a free and feature-rich, yet simple-to-use software utility that enables you to put together playlists with numerous audio tracks and prepare them for playback on the computer or external devices. It offers support for CDA, FLAC, MP3, OGG, WAV, WMA, AVI, MPEG, MPG, OGM and WMV files, together with

PLS and M3U playlist formats for the output files. Rapid setup and intuitive UI The installation operation is a simple and fast task. As far as looks is concerned, Playlist Creator is packed in a classical GUI with an intuitive structure, where audio tracks can be added to the playlist via the file browser, folder view or drag-and-drop support. Just add files and create a playlist easily The direct method to putting together a playlist is by indicating the output directory,

file name and type. However, users are also given the possibility to change the order of the files (shuffle mode available with one click), remove any unwanted items, as well as to apply the current folder as the playlist save location.

Customize some program options It is possible to change the UI language, check for software updates, hide the grid lines, allow multiple instances, disable sound on task completion, change the highlight colors for items referring to non-

existing files, make file associations, and so on.

Evaluation and conclusion

Everything worked smoothly in our testing: Playlist Creator was fast, effective and undemanding concerning system resources.

We have not come across any stability issues, since it did not hang, crash or pop up error messages. In a nutshell, Playlist Creator provides a very simple and speedy software solution pertaining to playlist creation and offers support for many popular audio files. Ratings

Playlist Creator is a free and feature-rich, yet simple-to-use software utility that enables you to put together playlists with numerous audio tracks and prepare them for playback on the computer or external devices.
