Thanks again!A planar light source comprises a light guide that may include a plurality of layers of a transparent material, such as, for example, glass. The planar light source may be operated in a lighting system to produce light, such as, for example, for architectural, general illumination, or decorative lighting purposes. Such light sources provide a controllable, uniform, and/or efficient light output from a comparatively small area. For example, the light guide may have an emission area of about 0.5 square meters (or m<sup>2</sup>) or less. The light guide is often made of transparent materials, such as, for example, glass, polymers, or transparent organic polymers. The light guide may be made of glass, such as, for example, a glass sheet. The light guide may be an optical waveguide, such as a multimode glass fiber, a monomode glass fiber, or a

Writing in the late seventeenth century, John Davies tells us that Ireland is the 'true Mother of our English drama' and in his description of the country's theatre culture he omits any reference to Gaelic and Irish performances. But with the renewed interest in Ireland's cultural and political past, Irish dramatic performance has begun to receive more attention, with the recent publication of The Politics of the Irish Theatre, 1800-2000 (2012). In this book, Seán Ó Faoláin argues that the politics of theatre - its ideological stance - transformed and informed Irish politics 2edc1e01e8
