System Requirements:

As mentioned in the previous notes, the game requires a video card and sound card. If you don't own a video card or a sound card you can visit either this website or this website to find out more about setting up your system for ultimate speed. Input: On the home page click the White button. At the top of the menu click the button labeled White. Then click the game on the screen and select it. Note that the game will use the the sound from the Gamepad and not the system default speakers so you need to ensure the Gamepad
