While using these lenses, you can add new graphics and effects by using the toolbox's built-in brushes. The brushes are reasonably priced (\$0.99 to \$1.99 a piece) and they're just as good as your stock brushes in Elements. Besides, who wants to use other brushes? This tutorial might interest some of you. I made my first Alamy photoshoot using 1:1 stretched and cropped photos. Later, I switched to stitching my images together, experimenting with more sophisticated stitching tools and effects. The Out of Stock photos are simple to create. I simply opened my multiple photos on my white iPad Pro and then create a white canvas. From there I simply drag and place my photos (with a little adjustment to the poses). The fixed high-pass filter does a good job creating the background. It's easy, and fast. In fact, I was able to create a bunch of photos and select for Out of Stock before lunch (I ate in between). I then moved on to creating more complex Photoshop projects. In the earlier ones, the photos were all unaltered. For this project, I stretched the photos to 1:1. Then, I used the pixels as guides for the stitching. I then used different levels of the opacity and filters to create a custom look for the photos. No, I'm not married to the idea of white backgrounds. The latest development in photo-editing technology, Photoshop CS 8.1 lets you work faster and produce high-quality, carefully controlled results.
