UMP45 Stinger Our Weapon of the Month in October
2017 is a blade. Just like its namesake, the Sword of Dark
Man is a double edged sword. This is our most dangerous
weapon to use and attack with. The Blade will lower your
Stamina Meter when you use it. The longer you go with
the sword before you are low on Stamina, the more
powerful the attack will be. (Stamina recharges when you
level up.) The Blade has two ways to attack your
opponent, either a single strike or long range attacks. A
single strike will do a bit of damage. A long range attack
does as much damage as a single strike, but will drain

your Stamina. You can only use a single strike in a single attack sequence. As you level up and obtain stronger weapons, the Blade will be upgraded to increase the damage dealt per strike and with more Stamina costs.
