Some of the most important functions available on Photoshop are found on the tool bar, such as Color Selections and Adjustments. Color Selections allow you to adjust color key or color correction. You can also fine tune brightness and contrast with these settings. Adjustments selectively adjust color, saturation, brightness, and contrast to create an image. In addition, the Lens Correction is used to correct major artifacts caused by color fringing, creating very pleasing and natural-looking images. Lens Correction also includes the ability to sharpen and soften the image and apply different types of special filters to your image. The Spot Removal tool is used to remove objects such as a person's head from a photo. Fine-Tune your work using the many grand options that Photoshop has to offer. Use the Gradient tool to apply gradient fills to images or even create your own custom ones. The Oil Paint filters are a must for creating a thick and realistic paint effect that displays gradients easily. Blend This tool is a great way to smooth the edges of your photo or use it to fill out an area of detail in your photo. The Clone Brush tool takes a single area of your photo and simply layers it to the rest of your photo can be used for selected areas of a photo. In addition, the Dodge, Burn, and Pick tools can be used to add effects to an image, giving it a slight boost to stand out. There are many reasons to use photo editing software, not the least of which is protecting against the damage caused by poor image quality. Everyone has seen images with poor quality or one that just does not look as appealing as their friends' photos. With photo editing software, you can automatically eliminate the redeye problem, make an image brighter and add or remove shadows and highlights. While photo editing software can be helpful for selecting images for your organization's weblink, Photoshop is much more than just a picture tool. It is a precis editor that provides tools for the conscious touch and tonal control. Using a lot of these processes, you can add the elements of drama and sophistication to your company logo or product page. e3d0a04c9c
